ABOUT US

Are you ready to explore Chakra Special Caves, inspired by the rainbow in our bodies?

Chakras are an energy system whose roots date back to ancient times in Eastern philosophy. There are 7 fundamental energy centers in the human body. Each central chakra is described as a (loop, vortex). Each chakra is represented by 7 different colors and these colors are the colors found in the rainbow. Chakras correspond to specific internal organs and nerve bundles in your body. The energy flow between the chakras helps achieve physiological and psychological balance. A human being is concretely a whole of body, soul and mind.

Why Chakra Special Caves?

With its stone structure reflecting the unique architectural texture of Ürgüp, modern accommodation facilities, warm decoration, rooms with 7 different concepts and mystical atmosphere, it provides an unforgettable holiday atmosphere. It offers a unique Cappadocia experience with its rooms with jacuzzis, fireplaces and its central location.

Enjoy your holiday in a quiet and peaceful environment at Chakra Special Caves, with free wifi, delicious breakfast and 24-hour reception at any time of the day.
